**Subject:** 11.16.17 Meeting Followup\_Additional Information

Greetings all,

What a great meeting today! The group brought forth many functional, achievable ideas for actions to collectively 'move the needle' in the Deschutes Watershed. Amy & I will record everyone's contributions to share back to the group before our next meeting.

Several folks asked me about scheduling and am providing clarification. The meetings are regularly scheduled for the 3<sup>rd</sup> Thursday of each month. In January we have to move the meeting out one week (to the 4<sup>th</sup> Thursday). Please put January 25<sup>th</sup> (9:30-12:30). Location TBD. After January's meeting, we will resume a regular schedule.

If interested in the West Bay Park initiative or survey that was shared today, you can click [here](#).

Also, attached is Leanne Weiss' powerpoint presentation. She invited individuals or organizations to contact her directly with any questions. Her contact information is included in the powerpoint. Keep in mind that Leanne is currently scheduled to present to this group in January – with emphasis on the questions this group asked back in May re: clarification of inputs, outputs, and function of the model being utilized for the development of the Budd Inlet TMDL.

Thank you for your contributions to the development of this group and the betterment of our watershed and communities.

Best,
